

# New Document Portal

## Wheeler Wolfenden & Dwares introduces ShareFile

We are pleased to announce our new secure portal solution to you. ShareFile is an easy way for you and us to share files securely. We are encouraging all clients to use this secure document portal. You may still drop off and/or mail documents if you choose not to use the secure portal.

Kindly reach out to Dawn or Adriana to begin gaining access to your portal.

### Upload and Download Files

Ability to download and upload files directly from your personal file. No sizing restrictions allows for large files to be shared.

### Secure File Sharing

Files are kept secure during transfer with SSL/TLS encryption protocols. In the cloud, storage of your files is kept safe using AES 256-bit encryption and SSAE 16 Type II certified data centers

### RightSignature

Files can be electronically signed directly from your ShareFile account.
